

# What do you know about H<sub>2</sub>O?

There's so much to know about our H<sub>2</sub>O! Where does it come from and how does it get into our homes? How is it cleaned before we drink it? Which laws protect it? What other benefits does it offer besides public health and fire protection?

Water plays a critical role in our daily lives and the quality of life we enjoy. This Drinking Water Week let's all make a commitment to learn more by getting to know our H<sub>2</sub>O! For more information visit [www.drinktap.org](http://www.drinktap.org) or contact your local water provider.
